ABOUT UNDER PRESSURE USA

Bringing the hidden world beneath our feet to life.

Under Pressure USA is a storytelling platform dedicated to bringing awareness to the infrastructure that keeps our communities running.

Created by John Hamling

Founder & Creator — Under Pressure USA

John Hamling is the Founder and Creator of Under Pressure USA. With more than 27 years in underground infrastructure and over two decades in the field, John brings firsthand experience from the industry he documents.

From the field to the story

After more than two decades working directly in the field, John has seen firsthand the challenges, innovation, and dedication behind the infrastructure that keeps communities running. Under Pressure USA was created to share those stories — highlighting the people, technology, and history behind the systems most people never see.

What We Create

UNDER PRESSURE UNDERGROUND

Documentary series exploring the history, evolution, and future of underground infrastructure.

FIELD STORIES

Real jobs, specialized equipment, and techniques from active worksites.

UNDER PRESSURE AFTER HOURS

Conversations with the people who build, repair, and maintain our infrastructure.

EDUCATIONAL SHORTS

Short-form storytelling reaching hundreds of thousands of viewers across social platforms.

The LET Philosophy

Luck • Effort • Time

Every career starts with an opportunity. For John Hamling, that opportunity came by chance in 1998 and opened the door to a lifelong career in underground infrastructure.

Luck creates the opportunity.

Effort builds the skill.

Time creates the experience.

What We Stand For

- Accuracy
- Education
- Authenticity
- Professionalism
- Respect for the Trades

Every city has a story beneath its streets. We're here to tell it.

Under Pressure USA reaches infrastructure professionals and a rapidly growing general audience interested in engineering, history, and the hidden systems that support everyday life.
